Subject: Can't use the floppy you sent....
Cc: barbara, brewster

I recently ordered NetFind, and received a 3 1/2" floppy in the mail. We don't have floppies with our SUNs, but we have an IBM PC and MACs with floppies.

Could you either send a floppy for an IBM PC or MAC, or send the software by email or ftp-ed, uuencoded?

Purchaser/User Name: Brewster Kahle

I would like to order qty 1 NetFind, at a price of \$159.

Purchaser/User Name: Brewster Kahle
Title: WAIS Project Leader
Institution: Thinking Machines Corporation
Phone: 415-329-9300
Fax: 415-329-9329
E-Mail: brewster@think.com

Bill To: Would like to use Brewster's VISA card. Is this acceptable?

Ship to: Would like to receive through e-mail or ftp-ed, uuencoded.
Is this a possibility, rather than by disk? If not, can you send on 3
1/2" floppy disk?

Is there any other information that you require?

thanks for your help,
barbara

Subject: NetFind purchase

Brewster's VISA is fine, e-mail the number and exp. date. We prefer to ship on 3 1/2" floppies via US mail and usually ship same day. We do need to know the domain name where NetFind will run. I assume it is think.com (NetFind will run on any machine foo.think.com). We also need the account name which I will assume is brewster. If these should be different, or if you have any questions, please give me a call.

I should also ask you if you would like maintenance. Information was included in the fax I sent.

Thanks again for your interest in NetFind.
